# ZONING CHANGE REVIEW SHEET

CASE: C14-2012-0058 (Summer Grove Apartments) Z.A.P. DATE: July 3, 2012

ADDRESS: 7905 San Felipe Boulevard

OWNER/APPLICANT: CREVI II Summer Grove, LLC (Wallace O. Sellers, Jr.)

AGENT: Alice Glasco Consulting (Alice Glasco)

**ZONING FROM: RR** 

**TO**: MF-3

AREA: 5.383 acres

# **SUMMARY STAFF RECOMMENDATION:**

The staff's recommendation is to grant MF-3, Multifamily Residence-Medium Density District, zoning.

# ZONING AND PLATTING COMMISSION RECOMMENDATION:

## **<u>DEPARTMENT COMMENTS:</u>**

The property in question is currently developed with a multifamily use (Summer Grove Apartments). The apartment complex was developed on the site in 1984 prior to annexation by the City of Austin in 1997, through Ordinance No. 971218-C. The apartment complex is considered a grandfathered nonconforming use. However, the lender has required that the new owner of the complex seek the appropriate zoning to bring the existing use into conformance with land use regulations in the City of Austin Land Development Code.

The staff is recommending MF-3 zoning for this tract of land because it meets the intent of the Multifamily Residence-Medium Density zoning district. The proposed MF-3 zoning would be compatible and consistent with the multifamily residential and commercial uses surrounding the site. There is currently GR-MU-CO and GR-CO zoning to the east and CS-CO and GR-CO zoning to the south of the site. There are developed multifamily uses to the north and east of the property. The tract of land under consideration fronts onto a collector street (San Felipe Boulevard) located between two arterial roadways (Pond Springs Road and McNeil Drive) near U.S. Highway 183 North.

The applicant agrees with the staff's recommendation.

### **EXISTING ZONING AND LAND USES:**

ZONING		LAND USES		
Site	RR	Multi-family (Summer Grove Apartments)		
North	RR	Apartments (Martha's Vineyard Apartments, Summit Creek Apartments)		
South	CS-CO, GR-CO	Convenience Storage (Store-A-Way Self Storage), Office (San Felipe Professional Building), Commercial/Retail Center (San Felipe Market)		
East	RR, I-RR, MF-2	Multi-family (Summit Creek Apartments, Los Indios Apartments, San Felipe Townhomes)		
West	GR-MU-CO	Undeveloped Tract, Plant Nursery (Red Barn Garden Center)		

AREA STUDY: N/A

# STAFF RECOMMENDATION

CIO

The staff's recommendation is to grant MF-3, Multifamily Residence-Medium Density District, zoning.

# BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Multifamily residence medium density (MF-3) district is the designation for multifamily use with a maximum density of up to 36 units per acre, depending on unit size. An MF-3 district designation may be applied to a use in a multifamily residential area located near supporting transportation and commercial facilities in a centrally located area or in an area for which medium density multifamily use is desired.

2. The proposed zoning should promote consistency and orderly planning.

The MF-3 zoning district would be compatible and consistent with the surrounding uses because there are multifamily residential uses located to the north and east and commercial/retail uses located to the south and west of the site.

3. The proposed zoning should allow for a reasonable use of the property.

The MF-3 zoning district is appropriate for this location because of the high density residential character of the area. The proposed zoning would bring the current multifamily use into conformance with use regulations in the City of Austin Land Development Code.

# **EXISTING CONDITIONS**

# Site Characteristics

The site under consideration is currently developed with a multifamily use (Summer Grove Apartments).

### **Environmental**

The site is located over the North Edwards Aquifer Recharge Zone. It is in the Desired Development Zone. The site is in the Rattan Creek Watershed, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code.

According to flood plain maps, there is a flood plain within the project boundary. Based upon the close proximity of flood plain, offsite drainage should be calculated to determine the exact location of the boundaries. No development is permitted in the Critical Water Quality Zone, while impervious cover is limited to 30% in the Water Quality Transition Zone.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact

ng other

the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

 Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any pre-existing approvals that preempt current water quality or Code requirements.

## **Impervious Cover**

The maximum impervious cover allowed by the MF-3 zoning district would be 65%. However, because the Watershed impervious cover is more restrictive than the zoning district's allowable impervious cover, the impervious cover on this site would be limited by the watershed ordinance.

The site is located over the North Edwards Aquifer Recharge Zone. It is in the Desired Development Zone. The site is in the Rattan Creek Watershed, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Net Site Area	% NSA with Transfers
Single-Family Residential (min. lot size 5750 sq. ft.)	45%	50%
One or Two Family Residential		
(lot size < 5750 sq. ft.)	55%	60%
Multifamily Residential	60%	65%
Commercial	65%	70%

In the Water Quality Transition Zones, impervious cover is limited to 30%.

Note: The most restrictive impervious cover limit applies.

# Site Plan

This is an existing multi-family site, but any new development on this property may be subject to Subchapter E: Design Standards and Mixed Use.

Additional comments will be made when the site plan is submitted for review.

# **Stormwater Detention**

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

# **Transportation**

No additional right-of-way is needed at this time.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC, 25-6-113].

**Existing Street Characteristics:** 

Name San Felipe	ROW 80	Pavement 40	Class Collector	Sidewalk? Yes	Bus Route?	Bike Route?
Water and Wastewater						No

# Water and Wastewater

WW1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Greg Guernsey, Director Neighborhood Planning and Zoning Department 505 Barton Spring Road, Suite 500 Austin, Texas 78704

RE: Summer Grove Apartments @ 7905 San Felipe Blvd. Rezoning

Dear Greg:

I represent the owners of CREVI II Summer Grove, LLC on the rezoning of an existing multifamily development comprising 5.383 acres. The site, which was annexed in 1997 (under ordinance number 971218-C) is currently zoned RR, Rural Residence (under ordinance number 980326-L, which converted interim zoning for all properties annexed in 1997). The site has 124 units that were built in 1984 in the ETJ. As part of the financing of the subject tract, the lender has required that the new owner seek appropriate zoning for the property since it is currently a non-conforming development. Our request is for MF-3 zoning, which would allow the currently built/net density of 124 units, thus bringing the property into conformance with zoning.

# Zoning Justification

MF-3 zoning is appropriate because it accommodates the current built density and is compatible with surround zoning and land uses, which include apartments, townhome condos and commercial uses.

We look forward to a positive staff recommendation. Please let me know if you have any questions or need additional information.

Sincerely.

Alice Glasco

Cc:

Jerry Rusthoven, Zoning Division Manager

Sherri Sirwaitis, Senior Planner

# PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:

# PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING to those uses already allowed in the seven commercial zoning DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:
